

## Report of Travel Committee for February 18 Board of Governors Meeting

The commissions received by the Travel Committee for Fiscal year '14-'15 will surpass '13-'14. The commissions for '13-'14 were \$10,837. The commissions to date for this fiscal year so far are \$10,725, with several trips still pending.

The Travel Committee has selected the programs it would like to provide for fiscal year '15-'16 and is waiting for each of the travel providers to get them scheduled. There will be 6 from programs from AHI, 2 from Orbridge and 3 from Gohagen.

The trips are a very lucrative and easy source of income for the AAMC. Medical Evacuation insurance is provided to all travelers when the trips are international, the cost for the fiscal year is typically \$600 or less, easily affordable based on the commissions collected.
